

Built for Outdoor Adventures.

The Alinghi crew takes the new multi-hull out for a training session. Adventurer Mike Horn leads a group of young explorers studying the effects of global warming on New Zealand's ecosystem. Swiss climber Ueli Steck summits Walker Pointe, the highest point in the Grand Jorasses, in a record 2 hours and 21 minutes. Nine adventure racing teams set out on the Wenger Patagonian Expedition Race. Finishing it is a victory in itself.

In the Wenger ambassadors, we see the same qualities that drive the development of our Swiss Army knives: Dedication, experience, the need to be prepared for anything, and a deep respect for the outdoors.
