

The Ranger Series

Our Ranger Series was created for those challenges that take a little more skill, a little more knowledge and require tools that are a little more powerful. These knives feature a 10cm blade that is capable of cutting those more demanding projects down to size. The Ranger also sports ergonomic handles which improve the knife's safety, performance and functionality. Not to mention Swiss craftsmanship that helps the Ranger series deliver a little more than your typical knife.

Every Ranger and Ranger Grip is made in Switzerland and includes a lifetime warranty.

La Série Ranger

Notre série Ranger a été créée pour des activités qui nécessitent un peu plus d'habileté, de connaissances et exigent des outils plus performants. Ces couteaux sont équipés d'une lame de 10cm adaptée à ces utilisations et capable de couper avec précision. Le Ranger comporte également un manche qui améliore la sécurité du couteau, sa performance et sa fonctionnalité. Ajoutez à cela le savoir-faire suisse unique et vous comprendrez que la série Ranger offre un peu plus que votre couteau traditionnel.

Chaque couteau Ranger et Ranger Grip est fabriqué en Suisse et doté d'une garantie à vie.

Die Ranger-Serie

Die Ranger Serie wurde für Outdoor Herausforderungen entwickelt, bei denen nur leistungsfähige Werkzeuge den speziell hohen Anforderungen gerecht werden. Die Messer verfügen über eine 10cm lange Klinge, so dass anspruchsvolle Vorhaben sicher und präzise bewerkstelligt werden können. Der ergonomische Handgriff des funktionalen Messers sorgt für mehr Sicherheit, Leistung und Effizienz. Die Ranger-Serie ist ein Produkt von solider Schweizer Handwerkskunst und herausragender Qualität, und bietet im Vergleich zu herkömmlichen Messern weit mehr als erwartet.

Jedes Ranger oder Ranger Grip Messer ist „Made in Switzerland“ und umfasst eine Garantie auf Lebenszeit.
